INTRODUCTION

Some time in 2020 we began an experimental new project, with a view to tapping into an exploding new mega-trend. Now we're able to see the results...

After 15+ years in business online, I've seen patterns repeat and new trends emerge.

Generally speaking, I advise anyone to choose a method, or a business model - and stick with it until you get results.

But every now and then, a new trend emerges that cannot and must not be ignored... because it changes the context.

And context is everything.

The fact is, the online business and commerce environment is changing - and we will have to adapt, in order to thrive.

Fortunately, in this guide I'm going to show you what's changing and how you can create a \$100,000+/yr business thanks to it... with a special focus on eServices.

eServices, by the way, are simply digital services bought, sold and fulfilled online... with no physical element necessary, no shipping or logistics, or inventory to worry about.

CHRIS MUNCH

I started my online business 10+ years ago while at university.

I was sharing an overcrowded student house, putting 12+ hours a day into my business, until it started to pay off.

I Made My First \$100,000+ Per Year with a blog network I created in consumer niches.

I combined viral content with certain underground traffic strategies I'd picked up.

I developed technologies to make it all run bigger, smoother and faster.

When I first sold access to my methods, it made 6 Figures In One Week. When I first sold access to the technology, it made 7 Figures In One Week.

Today I run an 8-Figure Software Company and help over 100,000+ people build their own businesses.

And I do it in a way that lasts them a lifetime... instead of when next loophole closes, like some.

JAY CRUIZ

Jay was stuck in a mind-numbing office job around the time we met. Like so many others, he was looking for an escape... and he added a powerful 'missing ingredient' to the business.

As soon as Jay came on board, we became the fastest growing company in our industry. His mastery of integrity-driven sales and persuasion made a huge impact.

WE INCREASED BY 350% IN RECORD TIME

It happened because he was getting word out about something with massive demand...(more on that later, though...)

Jay now heads up our team in London, UK - where he's helping others do the same every day.

THE 7 FACTORS OF A WINNING INDUSTRY

Regardless of what's happening in the world, there are some fundamental rules for being in a niche that will give you the absolute best results.

Many people will advise you to follow your passion, and while that can be great advice and seems like it would be enjoyable, if your passion doesn't make any money or leads you to bankruptcy, your hobby could quickly feel very unfulfilling.

It's always worth checking if your passion aligns with good business sense. If it does great, but if not then you might want to reconsider your direction or see if there's a way you can adjust.

For example, your passion could be Real Estate and selling expensive properties, but if the market goes south and few people are buying properties, then you might need to pivot.

You could instead focus more on the rental market, more on homes with high security, offer live online viewings, and provide online training on the best options for struggling homeowners. I know very little about the real estate market... but you get the idea to be creative.

EVERY WINNING INDUSTRY MEETS THE FOLLOWING CRITERIA...

I have 7 criteria that I use to decide if a specific industry or business model is worth getting involved with. Here they are...

If you can hit all 7 criteria then you have big potential on your hands, but even hitting just 5 or 6 can make a big difference to your success. Let's look in more detail...

1. High Customer Value – typically it's easier for the regular entrepreneur to make more money when the value of their customers is higher. For example, if you sell plastic cable ties and the main differentiator is price.

As a result your profit margins are low, then you have to sell a HUGE amount to make a lot of money. However, if you sell a high-profit \$5,000 service to someone with the cash to afford it, then you don't need many of those to make good money.

2. High Demand – This is fairly obvious but the higher the demand the better. If there's little or no demand then you will probably have a problem.

3. Huge Passion or Burning Problem – If it solves a painful problem or your audience shares a huge passion for the product or industry, then it makes getting sales a lot easier.

4. Large Variety of Products/Services – You don't hear this mentioned often, but it's critical to growth and stability. If you can only offer one key product line then you are limited.

If you get competition or growth stalls, you have little room for maneuver. However, when your target market is interested in a lot of different products and services you have more room to maneuver.

You can offer up-sells and cross-sell other products, focus on more popular, low competition or growing product categories as the times change, and even sell some products at a very low price just to gain a customer into your sales funnel.

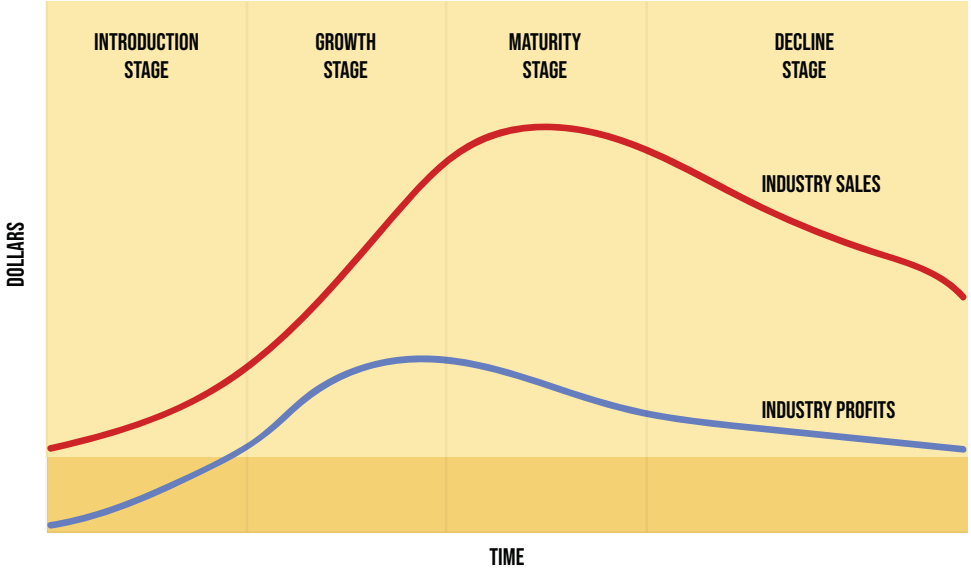

5. Low Competition – The less competition the easier your life will be as ultimately competition serves to lower your profit margins over time, and makes you work harder to have an advantage over the competition.

6. Repeat Purchases – If the products or services in your industry are typically repeating purchases or subscriptions then your customer value will be a lot higher, and your revenues a lot more predictable.

This also includes products where people need to buy more of something to keep using the product, such as ink cartridges for printers.

7. Growth Industry – Probably the pinnacle of all these 7 factors is being in a growth industry. This means with all things being equal, by just being in the industry your sales should grow by riding the wave of growth in the industry, even if you are just average. If you are good you will grow even quicker. The downside can be that technology and products change quickly, but that can also be a positive as it allows you to sell more. True growth industries continue to grow even during declines.

Think of radio in the 20s, TV in the 60s, internet in the 90s, and digital marketing and A.I. today. The earlier you are in this industry the better.

YOU WANT TO BE IN AN INDUSTRY THAT HAS MULTIPLE YEARS LEFT IN ITS GROWTH STAGE SO YOU CAN RIDE THIS WAVE OF GROWTH

HOW MANY OF THESE FACTORS DOES YOUR OWN BUSINESS HIT?

If you are hitting most of these including being in a growth industry then you should get through the economic decline in good condition, and maybe even grow.

However, if you are not measuring up well against these factors then you will need to prepare.

These factors work in the opposite way too so if, for example, your industry is declining and your competition is huge, then you are likely in trouble. You will need to pivot your business or maybe even see the writing on the wall and change your industry entirely.

Whereas if your industry is just steady (neither growing or declining), and competition is average, then you have less to be concerned about even if you are not in the most optimal industry.

Obviously this is all very subjective, but by doing some research and at least considering these criteria it helps you make better decisions.

Regardless, it's quite clear that being in a growth industry is a critical factor in surviving a crisis and potentially even ending up in a better position!

Also remember that things change over time, and your once great industry may not stay that way.

ECOMMERCE VS. ESERVICES

Aside from being in a growing industry, the business model of selling eServices hits all 7 criteria for a winning industry, and the sub-industry of our specially chosen eService is growing even faster.

The pandemic has only intensified the need to be online. Since foot traffic has plummeted during lockdowns and online traffic increased, many businesses have realized just how important the internet is. This has actually made it easier to sell eServices, not harder, as I'll discuss shortly.

The fact is, as soon as people were FORCED to find solutions to their day-to-day problems online, they quickly realised how much easier it was. They developed NEW BUYING HABITS and many businesses were fast to adapt and serve their needs.

We now see new eServices in every niche imaginable going live every day!

eServices are now officially EXPLODING.

This is the dawn of a new era... and we are right there at the start.

THE POWER OF THE "ESERVICE DROPSHIPPING" BUSINESS MODEL

Once again, eServices, are simply digital services bought, sold and fulfilled online... with no physical element necessary, no shipping or logistics, or inventory to worry about.

"Dropshipping" eServices, works just the same as in eCommerce, except without the physical component... so you don't have to worry about suppliers, stock or delayed shipments.

Let's take a look at this business model from a higher level.

On top of hitting all the 7 criteria for a winning industry this business model requires:

- 🌀 No Product - You resell someone else's eService
- 🌀 No Fulfillment - You have another company fulfill the service
- 🌀 Recurring Monthly Payments - You get paid every month for ongoing service
- 🌀 Low Maintenance - You just provide a monthly report if you like (recommended)
- 🌀 No Ad Spend - You can get sales using our fast and free automated traffic methods
- 🌀 Being Paid Upfront - You get paid upfront by buyers before delivering the eService
- 🌀 High Profit Margins - You can easily mark-up the price and make 50-95% profit margins

If you compare this to running a restaurant franchise for example which has a lot of logistics, stress, moving parts, and low profit margins... you can see how this hands-off eService model is far superior in many ways.

And word to the wise... both Amazon and Google have seen the writing on the wall and are investing in the eServices mega-trend as well. Rest assured though, we're actually a step ahead.

THE SECRET MULTIPLIER...

By this point you might have realized that the industry you serve dictates the potential of your financial results. Pick the right growing niche and you're in for bigger results.

What's especially great about the Dropshipping eServices model is you can choose to enter any niche you want. If the eService operates in that niche, so can you.

This means you can choose to serve the industries that are doing well. If things change you can pivot to a new industry.

You can ride the wave of growth of any booming industry without taking the financial risk!

With eServices already growing, this is your secret hidden multiplier. You are in a growing industry, serving the growing customer base of another booming industry! You are riding two waves of growth at the same time!

So obviously one of the first things we did was identify which industries were growing and declining like I've shared in this report and channeled our energy into safe and growing industries while at the same time encouraging our users to do the same.

Being in a growing industry that sells into another growing industry is extremely powerful. It's the one decision that makes everything else easier and many of the problems that most will be facing during a crisis just dissipate because the forces of growth are just so intense.

However, it's worth noting that society has just undergone a massive shift, and we are all about to experience, as they say in the media... a 'new normal'.

This means that the way we have sold before may no longer apply. And truth be told, it's been a long time coming... this shift into the digital. It affects us as digital marketers and entrepreneurs, just as much (if not more) as it affects the public at large.

THE WRITING ON THE WALL...

We're about to change gears now, because after several pages of theory, it's time for action.

I've done my best to arm you with the knowledge you need, to carry you forward, through the crisis, into the future - and through any crisis that may present in the future.

There will always be some 'threat' to our business... it's what we do about it... what we can control... that matters.

You see, as far back as 2012, we saw the writing on the wall...

... how 'Manual Digital Labor' was becoming obsolete...

... how 'Industry Giants' like Google, Facebook & Amazon were tightening regulations...

... how more and more "Market Whales" were swallowing up all kinds of niches...

Altogether - it leaves no room for 'the little guy' to compete and make a profit.

It was clear to us... a huge, yet inevitable shift was coming.

And now it's finally here.

So if you want to stand any hope of making \$2,079+ per week, like we and our students do...

Pay close attention to what you're about to read.

THE DROPSHIPPING ESERVICES MODEL WE CREATED ALLOWS YOU TO PROFIT WITH:

No Product

No Suppliers

No Inventory

No Facebook Ads

No YouTube Ads

No Google Ads

No Paid Advertising

No "Slow" Traffic

No List Building

No Social Media

No SEO

No Content Creation

No Amazon

No Shopify

No Tech Skills

No Design Skills

No Sales Skills

No Writing Skills

Which is critical because, first it was the factories, then it was the retailers...

... NOW IT'S THE INTERNET MARKETERS!

TESLA'S \$5 BILLION GIGAFACTORY, AMAZON'S DRONE NETWORK, UBER'S DRIVERLESS CARS... VR, AUGMENTED REALITY & ALEXA IN EVERY HOME - WE LIVE IN AN AUTOMATED WORLD!

If you don't setup your online business to be 99% automated...

... you're going to lose to someone who did.

Automation makes our lives easier and gives us more free time, sure.

Automation is also replacing humans in everything.

There IS still value to having "A Human Touch" in some cases.

But it HAS to be set aside as part of your 'brand' or 'experience'.

AND IF YOU NEED AN EXAMPLE - TAKE A LOOK AT THESE TRENDS ON THE FOLLOWING PAGE...

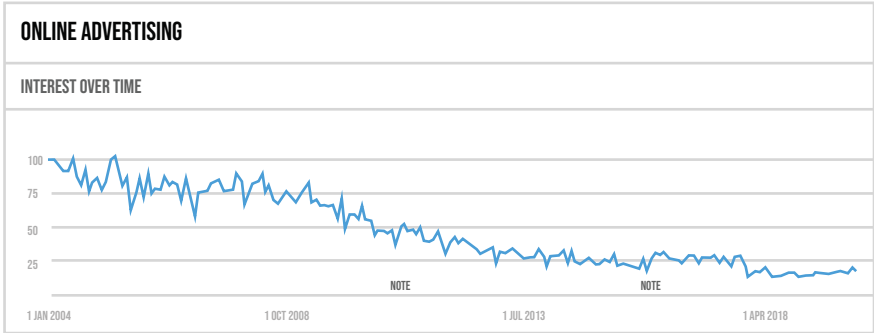

Web Designers Are Being Replaced By Software Like ClickFunnels And Wix...

Graphic Designers Are Being Replaced By Tools Like Crello And Canva...

SEO's Are Being Made Obsolete By Google's Machine Learning Algorithm...

Web Designers Are Being Replaced By Software Like ClickFunnels And Wix...

The Appeal Of Traditional Internet Marketing Is Falling As A Result...

TAKE ECOMMERCE, AMAZON FBA OR AFFILIATE MARKETING FOR INSTANCE...

They've been the most popular online business models for years.

A LOT of powerful technology, tools and software developed in that time.

Much of it was only ever shared in private 5-6 figure masterminds.

So these guys don't only grew bigger... they grew bigger, FASTER!

Which, unless they're following someone smart and honest, leaves 'the little guy' little... hope of catching up...

**UNLESS YOU GOT IN 7-8 YEARS
AGO THERE'S A GOOD CHANCE
THE EASIEST PROFITS ARE ALL
GONE..PROFITABLE BUSINESS
FOR 5+ YEARS THERE'S
A GOOD CHANCE YOU MISSED**

Guys doing eCommerce or selling on Amazon for 5+ years, still see exponential growth.

Amazon even partnered up with some of them and now help manage their accounts!

They let machines and software do 99% of the work for them.

THEN YOU HAVE THE 7-8 FIGURE SUPER AFFILIATES...

They get exclusive access to the best offers and the best commissions.

Plus, they have the huge budgets to buy up all the good traffic.

Meanwhile... the little guy remains on the outside.

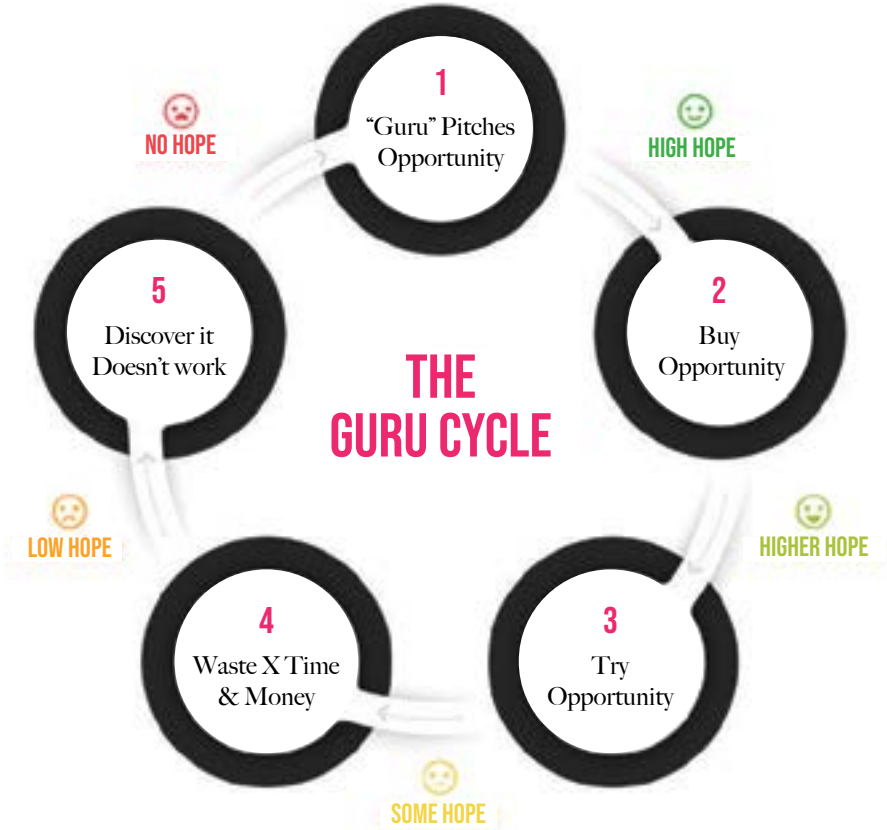

Lacking experience, the capital, or the tools and technology needed to get an advantage...

... as the little guy, you face near-impossible odds.

And there are some who want to keep you stuck there.

THERE ARE PEOPLE OUT THERE TRYING TO KEEP YOU STUCK RIGHT WHERE YOU ARE (WHILE TAKING YOUR MONEY...)

If you find the following cycle familiar – I feel for you...

So We Perfected Something You Could Do...
Even With No Past Experience Or Special Skills!

How do we know? Because we've already seen this model work for people just like you...

WE TAPPED INTO THE EXPLODING ESERVICES INDUSTRY

We found the right offer and put it in front of the right people – in a massive unsaturated market.

We built a high end funnel and optimized it.

Then we did everything we could to STOP doing everything manually!

That's the only way to keep growing your profits – and that's how you get the advantage.

We've done all that (and we'll share more with you in a moment).

If you want to build a real business... **REMEMBER!** Here is how it's done...

THE 7 FACTORS OF A FUTURE-PROOF \$2,079+ PER WEEK BUSINESS

If you're going to stand a chance of creating life-changing profits, which last a lifetime (and not just 6 months)... finally break free of the "The Guru Cycle" for good... you must follow these laws.

These 7 Proven Laws Apply In Every Business:

1. Make Sure You're In A Growing Market

... Go 'With' The Tide And Your Profits Rise Easier

2. Make Recurring Revenue The Core Of Your Business

... So You Can Keep Getting Paid For Sales You Only Make Once

3. Don't Ever Rely On Loopholes!

... Or Else You Risk Losing Everything In Around 6 Months Time

4. Replace As Many Human Activities As You Can...

... Focus On High-Value Activities And Let Machines Do The Rest

5. Focus On High Ticket Sales

... Making 10-20x More Profit Doesn't Take Much Extra Effort

6. Avoid Competition Where You Can...

... A Saturated Market Means Lower Profits & Slower Growth

7. Make Sure You Can Get Results Fast...

... Fast Results Increase The Chance You Stick To It Long Term!

THE RISE OF "ESERVICES" & THE COPY+PASTE \$100K ESTORE

DIGITAL SERVICES – SOLD AND DELIVERED ONLINE – 100% AUTOMATICALLY

Think about how Netflix delivers TV & Movies digitally, without any physical cases being shipped (anymore!)

Or how Dropbox provides storage for files, without a physical disk drive.

Or how Google & Facebook provide advertising, without having anything in physical print.

"eServices" has been around for a few years but it's only now EXPLODING as an industry.

In fact, amazing new eServices are being launched every single day!

And while that's interesting – what we're talking about is MUCH more exciting...

Because while eServices can be super lucrative – they are difficult, expensive and risky to build.

THAT'S WHY WE DEVELOPED A COMPLETE SYSTEM FOR "DROPSHIPPING ESERVICES" INSTEAD...

Dropshipping “eServices”

100% Done For You – Recurring Monthly Revenue – You Keep The Profits

eCommerce exploded after some very smart people developed some great dropshipping systems.

Dropshipping meant you'd make sales and get paid – but the manufacturer did shipping & delivery for you!

It worked, because it removed the most challenging part of the business – making it accessible to everyone.

Amazon took things to a whole new level with it's FBA ("Fulfilled By Amazon") program.

You could now sell products on their HUGE marketplace AND use their world-leading distribution network.

THIS IDEA MADE MILLIONAIRES – AND WE'RE THE FIRST TO BRING IT TO ESERVICES

We removed the most challenging parts (i.e. providing and delivering the eService)...

SO ALL YOU HAVE TO DO IS FOLLOW A SIMPLE SYSTEM TO STACK & SCALE RECURRING SALES – AND KEEP THE PROFIT!

When You Dropship An eService You're "The Middle Man" Between Buyers & Sellers –
And You Can Get Paid Every Month Just For Connecting Them Once!

All the usual barriers to entry disappear in the "Dropshipping eServices" model.

*The competition is kept out because we keep these
developments exclusive to our Asigo partners.*

What happened then, was more profitable for us and our students than anything before.

**FREE OF ALL THE USUAL CHALLENGES, YOU'RE ABLE TO FOCUS ON GROWING
YOUR BUSINESS.**

IMAGINE HAVING YOUR OWN “ESERVICE DROPSHIPPING” ESTORE GENERATING \$2,079+ PER WEEK FROM NO MORE THAN 23 SALES...

We made sure to have recurring revenue at the core of the model.

Making just 1-2 sales per MONTH still stacks profits up to a massive level.

... we began investing millions of dollars...

... and countless man hours...

... creating the platform, the method and the systems...

All to make it the simple “plug and play” process, you can use today.

WHY THIS IS BETTER THAN ANYTHING WE’VE DONE IN THE PAST...

EVERY problem our students have ever faced – even problems we’ve faced ourselves...

They’ve all been completely solved here!

PLUS – You Have An Instant “Play And Play” Business Hitting All 7 Proven Factors:

1. You’re In An Exploding Untapped Market So You’re Primed For Rapid Growth
2. You’ll Make Recurring Revenue So You Get Paid For Sales Your eStore Makes Once
3. You Aren’t Relying On Any Loopholes So The Profits You Generate Will Last
4. You’re Replacing 99% Of The “Manual Digital Labor” So You Get More Done In Less Time
5. You’re Focusing On High Ticket Sales So Every Result Will Pay You Much More
6. You’re Avoiding Competition In A Brand New Market So Opportunity Is Everywhere
7. You’re Going To Get Results Fast If You Follow The 5 Simple Steps...

It Only Requires You To Follow 3 Simple Tasks Every Day To Get Paid Through Your eService Dropshipping Store And Make \$2,079+ Per Week

BUT... WHAT ABOUT TRAFFIC?

And you might notice – there's no mention of 'Drive Traffic' or 'Pay For Ads' or anything like that.

That's because we don't need it!

Traffic has ALWAYS been a struggle for our students, so we made it a non-issue.

This – and many other questions, will all be answered on the live workshop, where we can build on everything we covered in this book and create a real business, in a rapidly growing new industry.

You'll see why eServices is the perfect opportunity for you right now...

You'll see how we get traffic without having to pay or wait for it...

You'll see our exact step-by-step plan to creating your own \$2,079+/wk 'eService Dropshipping Store'...

I am not sure if this would be helpful, but I am in my sixties, and retired from a long executive career. Needed to generate incremental income after my career ended suddenly due to an incident with cancer. I had no technical background, but quite strong on the marketing side. I have watched all Asigo and Ampifire training at least twice, and in some cases 3 times. I adapt what I learn to my personal style and am happy to talk to potential clients during the sales process. I am based in Cape Town, but really only focus on the US. I did run some premium campaigns for a game reserve here, with amazing results (could also provide screenshots), but the pandemic has ripped the heart out of that business for now.

After a strong start my business has dropped off a bit, mostly because my chosen niche, Home Renovations and Kitchen and Bathroom Remodelers, is struggling. Most of these businesses have done extremely well in the pandemic and just have more business than they can handle. Currently researching alternative niches, trying to stay close to real estate and home construction. Maybe Structural Engineers, or Architects or Interior Designers, but my fear is they may all be too busy right now.

I ended up purchasing Asigo after trying several other Affiliate Marketing programs, which I didn't enjoy at all. You have built by far the best program - I thoroughly enjoy it, it is professionally run, and in spite of some platform issues, I have no complaints. Your Support team is absolutely superb.

I am currently writing all of my own content for my two remaining clients, Ashley Cusack and a prominent Surgeon in Tampa Bay, because they are both incredibly brand conscious and I couldn't use your DFY team for them, but I really want to get back to the DFY model as much as possible. Writing my own campaigns is obviously incredibly time consuming!

THE ULTIMATE "NO EXCUSES" STORY EVERYBODY SHOULD READ...

ECSTATIC CLIENT BOOSTS REVENUES 150% AFTER ONLY ONE MONTH!

Marvelous JB shared a link.

Hello, I DID IT!!! MY FIRST CLIENT, AFTER 1 YEAR !!! I DID NOT GIVE UP! RING THE BELL like Danker!
 I signed my first client! I wanted to share this with you guys directly especially with Adam Hiller for his guidance and support!
 I am a little guy from the Caribbean with French as my native language but one day I had the chance to hear about the ASIGO system.
 Unemployed, right at the beginning of COVID 19, I decided to shoot for the moon and invested all my money in digital marketing because it was the way to go more than ever before as one of the safest business models in my opinion. My wife became unemployed as well right after me... I had to shoot for the moon for my family with 3 children in this crazy economy with COVID.
 I made many mistakes during this past year buying shiny objects products, invested thousands of USD in other products, tested e-commerce, affiliate, CPA never earned a penny but I didn't give up. I was canceling products after products sometimes I lost my money under the influence of unreliable Gurus. I lost money and never had a return on investment. But I never gave up despite my own doubts and the doubts of my family!
 It's a learning process and I started to become more and more focused, a bit more advanced and I never gave up on this ASIGO system even after more than a year... I found a way to captivate the attention of my prospect by offering no-brainer deals and approaching them with a foot to the door offer in order to include a hyper-local Ad and a big \$ campaign as upsells always at an affordable cost!
 Today I signed a client for \$2000 USD/month after crafting a growth marketing package tailored for his business. But in my country, this \$2000USD/month is worth \$6000 in the local currency with only one client...! This is the magic!
 That was always my vision and my plan and it enables me to support my family with one client. I will do my best to keep that client happy and I am counting on the ASIGO team in order to support me while I am trying to close more deals with more confidence. 5 clients will give me financial freedom in my country. This is my first goal.
 As an international, it's very challenging when you are a newbie especially with such premium service that you can't sell in your area. My investment in ASIGO has to be multiplied by 3 (weak local currency) for me so the ROI was and is still high.
 Thus, I feel like one of the most valuable ASIGO's clients! Don't laugh **Chris Munch** I need a reward really after more than 12 months! Don't you think?
 No matter what Always Keep faith in what you do! Know your why's and never give up!
Chris Munch, Jay Cruz and their team deliver premium services, premium training, and premium support! It's a real, scalable, and resilient business! I am enjoying that first client so I wanted to share this first win with you the ASIGO family.
Adam Hillside really thank you! I will contact you when I will be ready to use my credits (more than 15 that I have never used) for my client because I have to build 3 websites for my client for \$4000 USD ... This was the cherry on the cake!
 The last tip from a newbie: don't hesitate to give high value to your first clients! Offer them no-brainer packages! They will become your best ambassadors and referrals will come. This is my plan and I keep the faith in that while becoming a better professional and marketer.
 All the best guys!

INCREDIBLE "KEPT PUSHING" STORY AND THIS WAS JUST THE START!

THE TRAINING AND SOFTWARE TURNS A "NO WAY" INTO A FULLY PAID "YES PLEASE!"

Rishi Narayan
 Hello All,
 10y journey since August 19th year when I joined Adigo has been amazing. It has completely changed my mindset and attitude and I have become a consistent ACTING SALES. Thanks to Chris March for the amazing training as for initially I was reluctant talking to leads on phone but after 8y I talking, I was completely transformed and since last 3 weeks, I have spoken to 5 leads so far. Thanks to Jay for the amazing training.

Initial conversations have been amazing and I try to understand the businesses holding the Orgo. Name is all the discussions without appearing salesy. Most of the calls lasted for 20-25 mins and I allowed the business owners to speak most of the time, almost for 15-20 mins. Now, 2 of them have replied saying they will not need my services at the point of time but may consider it later.

Now, my question is "Should I tell them that I am always looking to cover one of their competitors in their area stopping free training and leave them for a while?" Also, should I offer them the free one week trial report during first call once they consent to it or should this be done during second call.

Also, one of the business owner runs an online platform which connects 2 ms professionals who offer services with the clients who need those services. She has offered to send me free traffic provided she gets paid in return. I have agreed to have a revenue sharing arrangement with her. How should I go about implementing it. Should I advertise what I do on her website or is there any other method to do this?

I have been in active conversations with close to 50 business area and I try speaking to them whenever they show slight interest.

Also, I have been during FULL INTO BUSINESS by doing manual outreach everyday trying to reach out to 20-25 business owners and the response has been phenomenal as I try to find email id of the Founder or the CEO of the firm.

No sales till now but I am hopeful of converting few by next month.

Many thanks to Chris, Jay, Support team and the wonderful Adigo Facebook platform for the wonderful training and guidance as far I am looking it.

Thanks,
 Rishi Narayan.

First sale set for 14.25 September after dealing with the client back and forth 5 times (once face to face 14 days ago). And just closed him by giving him 15% discount from \$497 = \$422 - \$198 (Imp) = \$322 profit!

Reason is simple: Told him I will lock the price for the next 6 months as did a little golden handshake! Super excited!

[Chris March](#): Can we do a case study here when we lock off? Might be the first one done here in South Africa!

THE EXPLODING NEW MEGA-TREND & UNCONVENTIONAL 3-STEP SYSTEM OUR STUDENTS USE TO GENERATE \$2,079+ PER WEEK "DROPSHIPPING ESERVICES"

IN THIS SESSION YOU'LL JOIN "THE FOUNDING FATHERS" OF ESERVICE DROPSHIPPING TO DISCOVER:

-  The next huge Mega-Trend set to be even bigger than eCommerce, currently generating \$10,513/day without even having 'scratched the surface'.
-  The original "eService Dropshipping" model, which generates 90% profit margins simply by acting as 'the man in the middle' in this exploding industry.
-  How you can clone their "Copy & Paste" eStore and hit \$2,079+ per week in profit with fewer than 25 total sales, even with no previous experience.
-  The "Aim & Fire" Traffic System for getting interested visitors, without ever having to pay for ads or waiting around for 'slow traffic' to kick in.
-  How you can instantly tap into a pool of over 50,000,000+ potential buyers, with thousands of dollars to spend on eServices every month, IN ANY NICHE.
-  How to manage your "eService Dropshipping Store" with near-total automation, no tech skills, no inventory, and no physical suppliers.
-  How the current global situation actually accelerated the growth of this new mega-trend and why 'the perfect moment to start' came several years early.
...and much more!
